Notes January:

NWEA has released NORMS for 2020 which includes data for 12th grade; therefore Pathways Academy is including 12th grade students in testing events

In an effort to increase participation rate, Pathways Academy has revised our plans and will now do three test events for the 2020-2021 school year instead of just the two required by legislation

In an effort to better effect the percentage of students who meet their growth projection goal, all students who tested in the 40% percentile or lower, for the fall test event, will automatically receive intervention in the tested subject area

In an effort to better effect our percentage of students who meet their growth projection goal, all students who test in the 40% percentile or lower, for the winter test event, will receive intervention and/or additional support in the tested subject area

Winter test window is closes on February 17th; therefore, winter test data will be available after the February 1st reporting date
